**UNLOCK! EXOTIC ADVENTURES**

- Ages 10 and up
- 60 minutes
- 1 to 6 players

**Game Overview**

Each deck of cards proposes a cooperative scenario. Players are immersed in an adventure and have one hour to complete their mission. During that hour, they will have to overcome many challenges and obstacles.

---

**Contents**

- A 10-card Tutorial deck
- 3 adventures (180 cards + 1 Sheet of paper + 1 Notebook)

**Important:** Do not look through the card decks before starting to play.

This tutorial is placed on the top of the first adventure.

Place these cards in space 0 once the decks are unwrapped.

- **The Night of the Boogeymen**
  - Difficulty level: 🌟🌟🌟

- **Sheherazade’s Last Tale**
  - Difficulty level: 🌟🌟🌟

- **Expedition: Challenger**
  - Difficulty level: 🌟🌟🌟
In order to learn how to play the game, it is recommended you play the Tutorial adventure first, as it will walk you through the rules. The tutorial can even be played before reading this rulebook. Just follow the setup instructions as indicated below:

- Place the start card (with the title of the adventure) in the center of the table, with the text face up.
- Place the other cards face down to form a deck.
- Launch the app (see App - page 7), select the Tutorial, and place the device within easy reach of all players.
- One player reads the text on the start card out loud, then launches the countdown on the app and flips the card over. The game begins!

Note: Players can take notes during the game.

The first room of the game is on the back of the start card. In this room, there are numbers and letters that match cards in the deck (the numbers and letters that are written on the back of the cards). Each time players see a number or a letter on the room card or any other card, they must take the matching card from the deck and reveal it (flip it over to see the other side). Revealed cards are placed face up on the table so that everyone can see them.

The game takes place in real time. The players must form a team and work together to win. Each player should have access to the deck at all times. Players can either designate one of them to search and reveal cards or split the deck among them. Players cannot spread out the deck on the table.
THERE ARE SEVERAL CARD TYPES.

OBJECTS (RED OR BLUE STRIPE)
Objects can sometimes interact with other objects (see Combining Objects - page 4).

- Object 35 is a cabinet.
- Object 11 is a key.

MACHINES (GREEN STRIPE)
Players must enter the Machine number in the app to access it (see Machines - page 5).
- Machine 69 is a grid with 6 pins.

CODES (YELLOW STRIPE)
Players must enter a code in the app to continue the adventure (see Codes - page 6).
- Card 21 is a door locked by a digital code. Players must enter the code in the app to unlock the door.

OTHER CARDS (GREY STRIPE)
These cards can be:
- A place showing a room and the objects within.
- The result of an interaction with an object.
- A penalty applied to players who made a mistake.
- A modifier (see Modifiers - page 5).

On the left, a room. In the middle, the result of an interaction. On the right, a penalty.
Sometimes, it is possible to combine objects (for example, a key with a door). To that end, just add their respective numbers together (within a red or blue circle) and look for the matching card in the deck. Of course, it is impossible to combine a letter with a number.

GOLDEN RULE: A red number can only be combined with a blue number and vice versa. NO other combination is possible (blue+blue, red+red, blue+grey, etc.).

Players decide to combine the key (11) with the cabinet (35). So, they look for card 46 (11+35) in the deck and reveal it. It works: they open the cabinet and discover what is inside.

The top of some cards bears crossed-out numbers or letters. You must immediately discard the corresponding cards as they will not be used again during the game.

After opening the cabinet (46), players must discard the key (11) and the cabinet (35).

Players may lose time (generally a few minutes) because of some actions they performed. If players reveal a Penalty card (6), they must follow its instructions. These cards must always be discarded afterwards.
Near a camp, there’s a laser on a stand. It’s pointing to the north-east towards the pyramid (P on the map). It can swivel round.

MACHINES

To use the machines (green-striped cards), players must enter the card number in the app (if a letter, the number below it). Then, the app will display the machine and the buttons that must be used to activate its functions. Once the players have understood how the machine works, the app will take them through all the steps to continue playing.

Later in the game, players have learned how to use machine 69. An electrical wire must be placed between the two pins in the center. So, they must press the app’s button and enter number 69. Then, by selecting the two pins in the center and after validating, they obtain number 16. Now, they can combine this number with the one of the electrical wire (16) and take card 25 (16+9).

Look out! A misuse can cause loss of time and you may need to move forward in the adventure to understand the machine.

MODIFIERS

There are Modifiers on some cards. These are blue numbers preceded by a “+” within the blue icons shaped as puzzle pieces. These numbers never match a card from the deck. They must be added to a red number (the golden rule!)
During the game, players will sometimes be confronted with codes (yellow stripe): combination locks, digital codes, etc. To open them, players will have to find the correct code. Then, this code must be entered in the app (see App - page 7) and validated (the card number doesn’t need to be entered).

**Codes are made up of 4 digits.** If players entered the correct code, the app will provide instructions so as to continue playing. If the code is incorrect, players, most often, will lose a few minutes.

**HIDDEN OBJECTS**

During the game, all objects are not always visible. Therefore, players must carefully look at the cards in order to find, every now and then, hidden letters or numbers that match cards to be looked for in the deck.

Note: If players are stuck and do not know what to do next, the button “Hidden Object” is available in the app and indicates the closest hidden object based on their progress. It is also possible, at game start, to activate the automatic help function to find the hidden objects. In this case, the app will provide the indications to players in due time.

*Do you see the hidden number (16) on the opposite card?*

**HINTS**

During the game and when at loss, players can obtain hints by pressing the app’s button “Hint” and by entering the number of a revealed card.

Note: For some of the cards, the app will offer players a second hint (and/or the solution) if the first one does not provide enough information.

For cards with a letter, players will have to enter the number below the letter to obtain the hint.

**END OF GAME**

The game ends once players have managed to solve the last puzzle and stopped the timer. Then, they can access their score and their performance evaluation (0 to 5 stars).
The **UNLOCK!** app can be downloaded, for free, from the App Store and Google Play. It manages players’ time, penalties, codes, machines, and hints. **THE APP IS REQUIRED TO PLAY THE GAME** (but once downloaded, no internet connection is necessary to play). After launching the app, players must select the box, then the game language; they are directed toward the adventure selection screen.

### ADVENTURE SELECTION

**A** Once the the strip is rolled out, players press the adventure title of their choosing. Reminder: It is recommended to start with the Tutorial adventure.

**B** Players are taken to the game screen.

### GAME SCREEN

**A** Remaining time or elapsed time (depending on the adventures).

**B** Start/Pause: Start or pause the game.

**C** Hint: Obtain a hint by entering the card number for which help is needed.

**D** Penalty: When players reveal a Penalty card, they are asked to press this button. As a result, they lose a few minutes.

**E** Code: Enter a code.

**F** Machine: Use of the machines.

**G** Review: Review hints/hidden objects.

**H** Hidden Object: Get help about hidden objects according to the progresses made in the adventure.

**I** Sound: Turn the background music on/off.

**J** Time: Play with or without the timer.

### HINTS/CODES/MACHINES

When pressing the “Hint”, “Code”, or “Machine” buttons, players get access to a digital keypad that allows them to enter the hint number, the code, or the Machine card number.

**A** Digital keypad: Enables players to enter a number. The button deletes the entire entry.

**B** Validation: Enables to validate the entered number and to obtain the corresponding message.

**C** Closing: Enables to close the digital keypad without making any entry.

### EVALUATION

After completing the adventure, players are automatically directed toward this screen. In certain instances, it will display the outcome of the adventure.

**A** Game results: This information summarizes the adventure. The first line shows the total time and number of requested hints. The second line shows the time lost due to penalties (in parentheses, the number of penalties). The third line shows the time lost because of the machines and the incorrect codes (in parentheses, the number of incorrect codes).

**B** Evaluation: The stars are awarded (from 0 to 5) according to players’ performance—time spent to complete the adventure and the number of hints requested.

**C** Sharing: Share your evaluation with your friends (connection required).
**PLAYER AID**

**CARD TYPES:**

- **Object** (door, key)
- **Modifier**
  - 1 BLUE NUMBER (other than the card number)
- **Code** (padlock, door code...)
  - Always 4 digits
  - Must be entered in the app
- **Machine**
  - Card number to be entered in the app
  - Requires solving a puzzle
- **Grey cards**
  - The other cards (location, interaction, penalties)

**THE GOLDEN RULE:** A RED NUMBER (OBJECT OR MACHINE) CAN ONLY BE COMBINED WITH A BLUE NUMBER (OBJECT OR MODIFIER) AND VICE VERSA.

**ADVICE**

**Be organized:**
- Split the deck between the players so that they can search faster through the cards during the game;
- Read the cards carefully and communicate with each other;
- Discard cards when instructed (and check that no errors have been made, crossed-out numbers or letters show the cards to be discarded).

**Still stuck?**
You may need to move forward in the adventure to understand a combination, a code or a machine. However:
- If a card seems too complex, request a hint about this specific card (even if it will lower your final evaluation);
- You might have missed a hidden object. Press the “Hidden Object” button in the app.
